

GLE-Outlook

A range of panoramic cars available for indoor or outdoor installation

The range of GLE-Outlook cars combines a harmonious and modern design with the greatest functionality.

It is a range of panoramic cars built with stainless steel and glass which provide the car with an open and modern feeling bringing an exclusive finish and many possibilities for finishes.

The electrical part of this lift comes prewired from factory, which helps provide a faster and easier assembly. At GLE, we are experts in supplying glazed cars without frames (double glass) to provide our customers with a clean and timeless design.

In addition, we offer the possibility to develop fully glass cars to be installed both inside and outside buildings.

Key Points

- ✓ Functionality and design
 - ✓ Interior and exterior fully glazed cars
 - ✓ Wide range of finishes and decoration options
 - ✓ Timeless design
-
